LinkedIn <https://www.linkedin.com/in/yuko-uda-70aa331/>

I am a web developer / web designer with strong skills in html, css and javascript, and have some back-end work experience with Ruby (Padrino and Rails). I have a passion for learning new technology and building something new collaborating with a team. Currently, I am developing a new video chat application using React as a designer and front-end developer. This project is the first application the company decided to use React for, therefore, I had to learn it and solve problems mostly by myself. Now I enjoy developing more than designing looks, so I'd like to work as a front-end developer in my next career.

Skills

Web Design	<div><div></div></div>	Excellent
UX Design	<div><div></div></div>	Excellent
HTML	<div><div></div></div>	Excellent
CSS	<div><div></div></div>	Excellent
